

ARJUN MIJAR

Anamnagar, Kathmandu, Nepal (Originally from Dolakha)

+977 9868156556 | dolkhaliarjun9800@gmail.com | [LinkedIn](#) | [GitHub](#)

Final-semester BSc. CSIT student with hands-on experience in full-stack web development and digital data processing. Passionate about building responsive applications using React, Next.js, and ASP.NET Core, with experience delivering technical and design solutions for civic and government projects. Strong analytical, problem-solving, and teamwork skills.

EDUCATION

Amrit Science Campus (Tribhuvan University)

2023 – 2027

Bachelor of Science in Computer Science and Information Technology (BSc. CSIT) | Currently in 8th Semester

Kathmandu, Nepal

Padmodaya Secondary School

2020 – 2022

Higher Secondary Education (+2) | Grade: A

Secondary Education Examination (SEE) | 2020 | Grade: A+

EXPERIENCE

Data Entry Operator | Department of Transportation, Ekantakuna (2years)

2024 – 2026

- Digitized and maintained vehicle records, including Bluebook (vehicle registration) documents, ensuring accurate data entry, document handling, and systematic record management within a government office environment.
- Developed strong professional communication, punctuality, attention to detail, and public-service skills by working with government staff and interacting professionally with citizens while following established administrative procedures.

Photoshop Designer | Independent Contractor (Government Project)

Project-Based (3 Months)

- Collaborated on a government-level project to design detailed and accurate geographical maps of Nepal.
- Created visual assets featuring precise location plotting, province shading, and population-density representations etc. using Adobe Photoshop.

PROJECTS

[Student Management System](#) | ASP.NET Core, React.js, MySQL, TypeScript

- Developed a full-stack student management application using ASP.NET Core for the backend and React.js for the frontend.
- Implemented secure CRUD operations for student records with robust MySQL database integration.
- Built a responsive, user-friendly UI with advanced search and data-sorting capabilities.
- Connected frontend and backend using REST APIs and Entity Framework Core.
- [Live preview](#)

[Municipality Portal](#) | React, TypeScript, Vite, Tailwind CSS

- Built a responsive municipality frontend web application using React, TypeScript, and Vite, styled with Tailwind CSS.
- Implemented civic features including notices management, service information, ward details, representative directories, and contact functionality.
- Designed reusable UI components such as cards and navigation bars to maintain design consistency.
